MM

Per Ultrasound Report

Sex: Male	Body Wt: kg
Bed:	Reg. No:
Date: 31-10-2020	

MBBS, DCH, (DU). Assistant Professor (Paediatric Cardiology) Dhaka Shishu Hospital

LA	mm.	LVIDd	35	mm.	ACS	mm.
IVSd	6	LVIDs	21	mm.	MVA	cm ²
PWd	7	FS	40	%	MVO	mm.
		EF	72	%	PA	mm

Situs solitus, levocardia.

Normal systemic & pulmonary venous drainage.

Moderate secundum ASD measuring 5.4 mm, shunting Lt. to Rt.

AV & VA concordance.

Tricuspid valve annulus measuring 18.7 mm, Grade - I TR (PPG 24.6 mm Hg).

Mitral valve annulus measuring 18.3 mm, no MR & MS.

Mildly dilated RA & RV.

Tiny apical muscular VSD shunting Lt. to Rt.

Normally related great arteries.

Severe pulmonary hypertension (PASP 80.6 mm Hg).

Pulmonary valve annulus measuring 14.5 mm, Grade - I PR (PR peak 15.3 mm Hg) & no PS.

Good size confluent branch PA's.

LPA : 6.5 mm & RPA : 6.6 mm.

Tricommissural aortic valve measuring 12.1 mm, no AS & AR.

Left aortic arch.

Descending aortic GDT 7.3 mm Hg.

No COA, PDA.

No LSVC.

Good LV systolic function.

IMPRESSION:

- Moderate secundum ASD shunting Lt. to Rt.
- Tiny apical muscular VSD shunting Lt. to Rt.
- Grade - I TR & PR.
- Mildly dilated RA & RV.
- Good LV systolic function.

Advice: Follow up echo after 06 months.
