To Whomsoever It May Concern

Please allow us the opportunity to thank you for considering our services for your patient's healthcare requirements. After a thorough discussion of your case based on the information shared with **Dr Hari Goyal (Chief - Medical Oncology, Hematology, Oncology)** at **Artemis Hospital, Gurugram**, we have provided the tentative treatment plan along with indicative financial implications.

Artemis Hospital has a capacity of **550 plus beds with dedicated 125 critical care beds with over 150 specialists** across various super specialties making it one of the best hospitals in India.

Please find the medical opinion for the patient **Abul Hasem**.

As per patient's medical report, patient needs to undergo detailed medical evaluation. Patient is Case of hepatocellular carcinoma with portal vein thrombus with underlying Help B related CLD with portal gastropathy and esophageal varices. Patient will require – tumor marker testing, PET CT whole body with triple phase CT. Treatment would be liver directed therapy followed by oral TKI, if TACE/TARE +/- SBRT to be given. If no procedure, then oral TKI vs immunotherapy is the treatment of choice. Final treatment plan will be decided after detailed evaluation.

Estimated Stay: Stay in India will be 03-04 Weeks.
