

USG REPORT

I.D. No : CU251161 Received date : 5 Jul 2023 Printed date: 5 Jul 2023 08:12PM
Name of Pt. : MD. ABDUL KHALEK Age : 75 y(s) Sex: Male
Ref. By : Prof. Dr. Md. Nazmul Hasan Chowdhury (Nasim), MBBS, MD (Neurology), MCPS
Part Scanned: USG WHOLE ABDOMEN WITH PVR

Thank you for the Courtesy of this kind referral
Scan was performed with Voluson E8 (Digital) USG machine

- Liver** : Normal in size (15.0 cm in right mid clavicular line) with homogenous parenchymal echotexture and diffusely increased echogenicity having no focal lesion. Intrahepatic biliary radicals or hepatic veins are not dilated.
- CBD** : Not dilated.
- Gallbladder** : Normal in size and shape. Wall thickness is within normal limit. Lumen is free of any calculus sludge or mass lesion.
- Pancreas** : Normal in size (AP thickness- 1.2 cm) and uniform in echotexture. MPD is not dilated.
- Spleen** : Normal in size (Bipolar length- 9.0 cm) and uniform in echotexture.
- Kidneys** : Both the kidneys are normal in size (Bipolar length- RK- 11.1 cm, LK- 11.0 cm), shape and position. Cortical thickness and echogenicity are normal and CMD is maintained. PC systems of neither kidney are dilated. No calculus is seen. One small rounded and well-defined anechoic cystic lesion (4.6x3.7 cm) is noted in upper polar cortex of LK.
- Uri. bladder** : Well filled. Wall thickness is regular and within normal limit. No calculus or mass lesion is seen.
- Prostate** : The prostate is enlarged in size (Vol-41.1 gm). Prostatic parenchymal echotexture is unremarkable. Capsule appears intact.
- MCC** : About 238 ml.
- PVR** : About 86 ml.
- Comment** : 1. Fatty liver (Grade-I).
2. Left renal cortical cyst.
3. Enlarged prostate with significant PVR.
