

ULTRASONOGRAPHY REPORT

Registration No: 33739	Date: 5 October 2023	
Name: Ms. MITU AKTER	Age: 28 Years	Sex: F
Referred by: DR. NARGIS AKTER, MCPS, DGO(G & O)		
Transvaginal Sonography (TVS) of the Pelvic Organs		

-Thank You For Your Kind Referral-

Transvaginal Sonography (TVS):

Urinary Bladder is empty.

Uterus is bulky in size. Length measures about 8.9 cm, antero-posterior diameter measures about 5.3 cm & transverse diameter measures about 6.7 cm. It is anteverted in position. Perimetrium is regular in contour.

Myometrium: Myometrial echotexture is heterogeneous. Multiple tiny anechoic areas are noted within myometrium.

Endometrium: Endometrial thickness is within normal limit. Endometrial cavity is empty.

Cervix appears to be normal in size(L:3.8cm, AP:2.6cm). It is uniform in echotexture with closed internal os.

Right Ovary is normal in size (22mm x 15mm x 16mm, vol:3.1cc) and shape. No mass is noted in right tubo-ovarian region.

Left Ovary is normal in size (24mm x 15mm x 17mm, vol:3.4cc) and shape. No mass is noted in left tubo-ovarian region.

Cul-de-sac contains no free fluid.

Impression: Bulky uterus with adenomyosis.
