

LABORATORY INVESTIGATION REPORT

Patient Name : Mr. MOHAMMAD SUMSUL HAQUE
UHID : AIGG.20676703
Episode : OP
Ref. Doctor : Dr. Venishetty Shantan

Age/Sex : 64 Year(s) / Male
Order Date : 15/03/2024 13:14
Bill No. : AGOCS240250512
Mobile No : 8801727913676
Facility : AIG Hospitals, Gachibowli

Sample No : AGO0355824A
Ack. Date : 15/03/2024 14:22

Collec.Date : 15/03/24 13:26
Report Date : 15/03/24 18:04

• The presence of hemoglobin variants In patients with rare homozygous and double heterozygous forms of abnormal Hb (eg, CC, SS, EE, SC), there is no HbA present; therefore can interfere with the measurement of hemoglobin A1c (HbA1c). Fructosamine may be used as an alternate measurement to monitor glycemic control.
