

## Haematology & Coagulation

Name : Mrs. Sultana Razia Akther  
 Age : 52 Year(s) 7 Month(s) 6 Day(s)  
 Dept : Medicine Gender : Female  
 Unit : Haematology Bed No :  
 Refd. by : Prof. Dr. Manzur Morshed  
 MBBS, FCPS (Internal Medicine), MRCP (UK), Sr. Consultant, Internal  
 Medicine & Clinical Haematology

Ref Type : OPD

Specimen : Blood

Passport No : 0

MR No : D125-146595

Test Method : NA

MR No

HCN

Report ID

## Haemogram

| INVESTIGATION                             | RESULT | UNIT       | REFERENCE RANGE                 |
|-------------------------------------------|--------|------------|---------------------------------|
| <b>RED CELLS</b>                          |        |            |                                 |
| Haemoglobin (Hb)                          | 10.9   | g/dl       | Men:13.0-17.0, Women: 12.0-15.0 |
| Hematocrit(Hct)                           | 37.8   | %          | Men:40-50, Women:36-46          |
| Red Cells Count                           | 4.96   | M/ $\mu$ l | Men: 4.5-5.5, Women:3.8-4.8     |
| Mean cell volume(MCV)                     | 76.2   | fL         | 83-101                          |
| Mean cell Haemoglobin(MCH)                | 22.0   | pg         | 27.0-32.0                       |
| Mean cell Haemoglobin Concentration(MCHC) | 28.8   | g/dl       | 30.0-35.0                       |
| Red Cell Distribution Width(RDW)          | 20.1   | %          | 115-14.5                        |
| Nucleated Red Blood Cells(NRBC)           | 0.0    | %          |                                 |
| <b>TOTAL COUNT</b>                        |        |            |                                 |
| Total WBC Count                           | 5.65   | K/ $\mu$ l | 4.0-10.0                        |
| Neutrophil                                | 3.90   | K/ $\mu$ l | 2.0-7.0                         |
| Lymphocyte                                | 1.47   | K/ $\mu$ l | 1.0-3.0                         |
| Monocyte                                  | 0.18   | K/ $\mu$ l | 0.2-1.0                         |
| Eosinophil                                | 0.08   | K/ $\mu$ l | 0.02-0.50                       |
| Basophil                                  | 0.01   | K/ $\mu$ l | 0.02-0.10                       |
| Immature granulocytes                     | 0.01   | K/ $\mu$ l |                                 |
| <b>DIFFERENTIAL WBC COUNT</b>             |        |            |                                 |
| Neutrophils%                              | 69.0   | %          | 40-80                           |
| Lymphocytes%                              | 26.0   | %          | 20-40                           |
| Monocytes%                                | 3.2    | %          | 2-10                            |
| Eosinophils%                              | 1.4    | %          | 1-6                             |
| Basophils%                                | 0.2    | %          | 0-1                             |
| Immature granulocytes %                   | 0.2    | %          |                                 |
| <b>PLATELETS &amp; OTHERS</b>             |        |            |                                 |
| Platelets Count                           | 138    | K/ $\mu$ l | 150-410                         |
